- We have implemented stringent office procedures on the handling of the NID, SIGINT Summary and NIE/SNIEs; will discuss in detail when we meet.

Intelligence Collection Activities Against China: [REDACTED]

● Response due date is 20 May; however, we have been extending on a case-by-case basis. It appears that some organizations/individuals were late in receiving our memo on this subject. An informal poll indicates that some organizations are diligently at work attempting to meet the due date.

- [REDACTED] has developed a research paper on "The Intelligence Importance of the People's Republic of China." The paper is a good backgrounder and thought provoking.
- [REDACTED]
